

## **THE ALUMINUM FLIP 'N GO™ SYSTEM FROM CRAMARO**

### **THE BEST CHOICE IN A FLIP ARM TARPING SYSTEM**

- Covers and uncovers in seconds
- Safe, one-hand manual operation, or electric
- 1 year factory warranty
- Choice of tarp material

**AT CRAMARO, THE CHOICE IS YOURS.  
CONFIGURE THE FLIP 'N GO™ SYSTEM  
TO MEET YOUR NEEDS WITH:**

#### **DRIVES:**

##### **ELECTRIC**

- Compact and heavy duty 1.8 HP direct drive motor with cover
- Cab operated
- Heavy duty solenoid/rocker switch
- No maintenance or chain drive
- Heavy duty gearing for reliability and longevity
- Three year full warranty
- Wireless remote control option

##### **MANUAL**

- Safe, fast and easy one-hand operation: crank to uncover, release tension lever to cover
- Adjustable length ground control crank box
- Enclosed chain drive for safety
- Safety locking system
- Heavy duty and low maintenance components
- Aluminum cover

#### **SPRINGS:**

##### **TORSION/ARM PIVOT**

- Three different sizes available for trailer/body lengths from **10' - 48'**
- Easy replacement
- Engineered for smooth, consistent operation and pressure
- Springs replaceable separately from arms

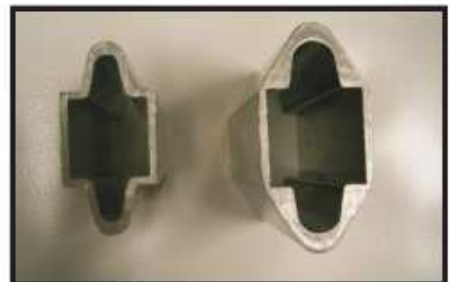

##### **UNDERBODY QUICK MOUNT**

- Low profile
- Hidden from loader
- Quick and easy installation
- Tension is adjustable

#### **ARMS:**

##### **ALUMINUM**

- Strongest in the industry – heavy duty diamond shape extrusion
- No wear pivot hubs with grease fitting
- Easy install telescoping arms – just drill and through bolt
- 148 degree elbow kit available for trucks with cab shield and pneumatic lift tailgates
- Great appearance, no painting or rust problems
- Available in four different sizes based on trailer/body length

Straight Arms For Trailers

Bent Upper Arms For Trucks

Custom Arms For High Lift Gates

## **OPTIONAL FRONT ASSEMBLY:**

- All aluminum lightweight assembly with integral wind deflector and bearing plates
- Fits trailers with radius or chamfered front
- Fast and easy install
- Header mounts out of the way to minimize damage from loader and maximize loading space
- Aerodynamically designed wind deflector to decrease tarp wind whip
- Less wind flow over the load helps keep asphalt hot

## **STANDARD FRONT SHIELD:**

- Aluminum two-piece adjustable width design
- Saves weight
- Designed for trucks with cab shields and square front trailers

## **TARPS:**

### **MESH/RHINO**

- Vinyl coated for durability
- Double reinforced pocket and edges folded over with seatbelt reinforcement for long life
- Elastic tabs with grommets for positive alignment and pivoting flexibility at rear corners of tarp
- Double lockstitched
- Many color choices
- Custom applications available

### **VINYL/ASPHALT**

- Highest quality vinyl for durability
- Asphalt tarps have no seals, one piece construction
- Double reinforced pocket and edges folded over with seatbelt reinforcement for long life
- Many color choices
- Double lockstitched
- Available with drop sides and tail flap
- Custom applications available
- All tarps are sold separately
