

CRAMARO FLIP'N GO™ ECONO

The **FLIP'N Go™ Econo** is an all aluminum flip system designed for trucks and trailers up to 20' long. The system utilizes the popular spiral spring which has proven to be reliable over the past ten years. The same heavy duty aluminum extrusions that are part of the **Flip'N Go™** are used in this system. The **FNG Econo** is lighter in weight and less expensive. It is available in a manual or electric version.

DIAMOND Shaped profile is the STRONGEST in The Industry

Arms come with an aluminum cast (148 degree) connector, which can be fitted anywhere on the upper arm to accommodate any cab shield height.
